tactile µConsole

A new generation of miniaturized tactile LCD micro console for the programming and the teleloading of the new range of ARDETEM signal conditioners.

It allows:

- The visualization of the measure and the status of the analog, relay and digital outputs.

- The visualization and the modification of the programming.

- The teleloading of programming files for duplication to other signal conditioners.

Description

The graphical tactile rear-lit LCD allows the visualization of the following information:

- The value of the measure with its unit

- The product tag name

- The value(s) of the analog output(s)

- The status of the relay outputs and the RS485 communication

- Scrolling message for programming help in various languages

- Two keys with programmable functions (Min, Max, clear, setting of the setpoints...)

Features

- Dimensions (HxlxD): 90 x 22.6 x 24

- Material: self-extinguishing black UL 94VO PA66

- IP 40 housing

- CE marking
